Modul 3

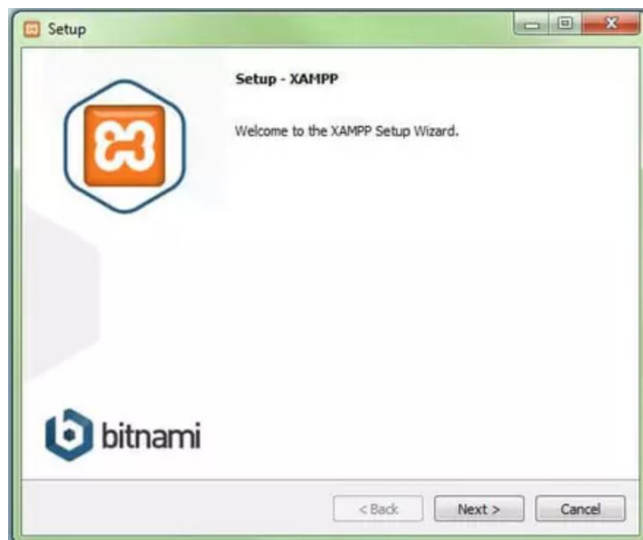

Installation IoT Server (XAMPP)

Installing xampp:

Download xampp file.

Once the software bundle has been downloaded, you can start the installation by double clicking on the file with the ending .exe.

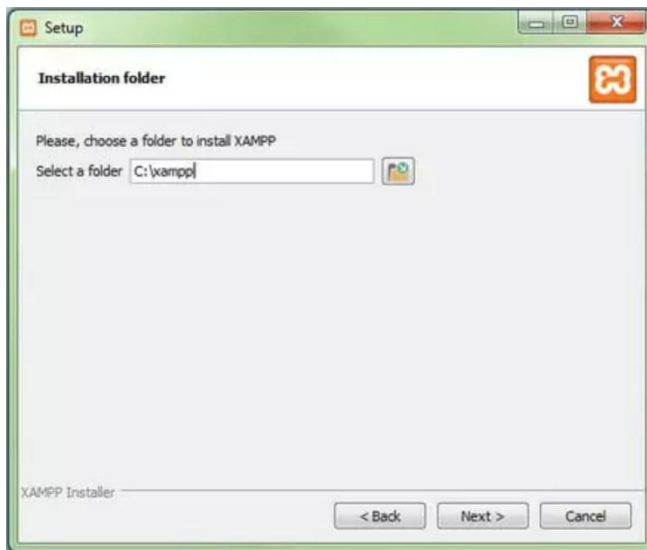

After you've opened the .exe file (after deactivating your antivirus program(s) and taken note of the User Account Control, the start screen of the XAMPP setup wizard should appear automatically. Click on 'Next' to configure the installation settings

Choose software components

Choose the installation directory

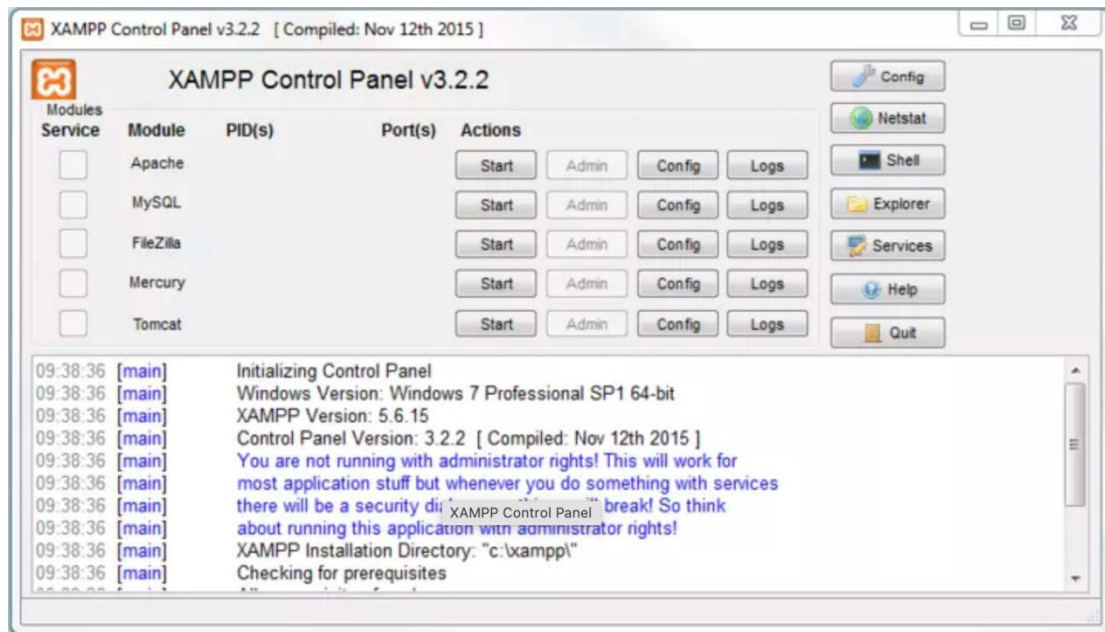

Start the installation process

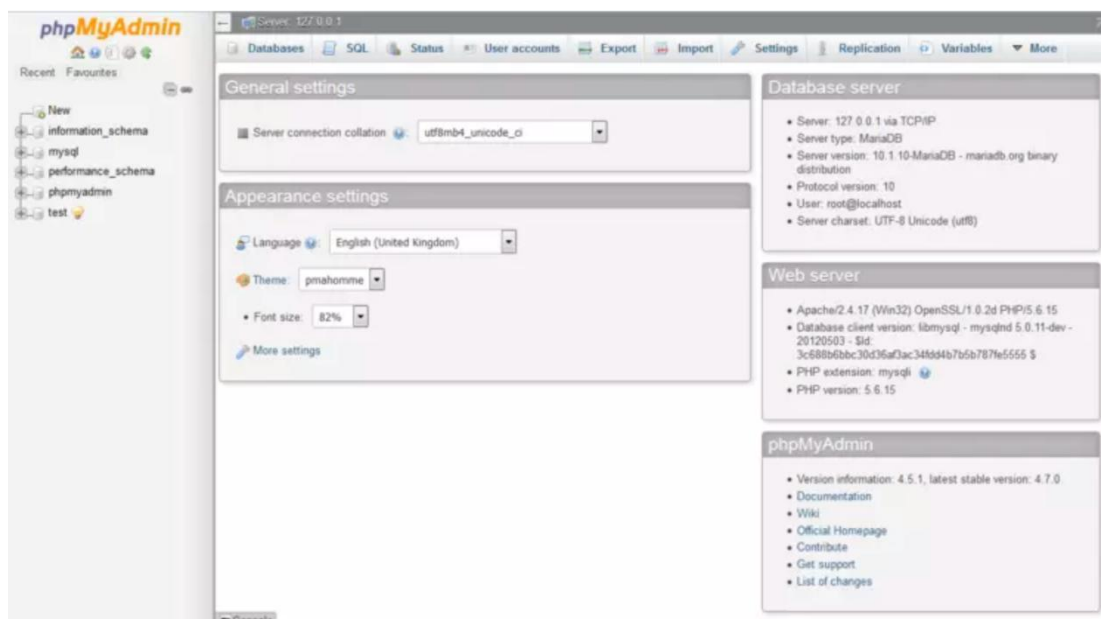

Complete installation

The XAMPP Control Panel

Setting up XAMPP

Testing your XAMPP installation

```
<html>
<head>
  <title>PHP-Test</title>
</head>
<body>
  <?php echo '<p>Hello World</p>'; ?>
</body>
</html>
```

JOBSHEET 3

Lakukan installasi xampp, dan buat server dengan nama iot di localhost, jelaskan tahapan dan hasil installasi nya.

LAPORAN HASIL PERCOBAAN:
