Elements / Components

System Definition

Basic Concepts

❖ System Classification:

✓ *Abstract system vs Physical system*

✓ *Natural system vs Human made system*

✓ *Deterministic system vs Probabilistic system*

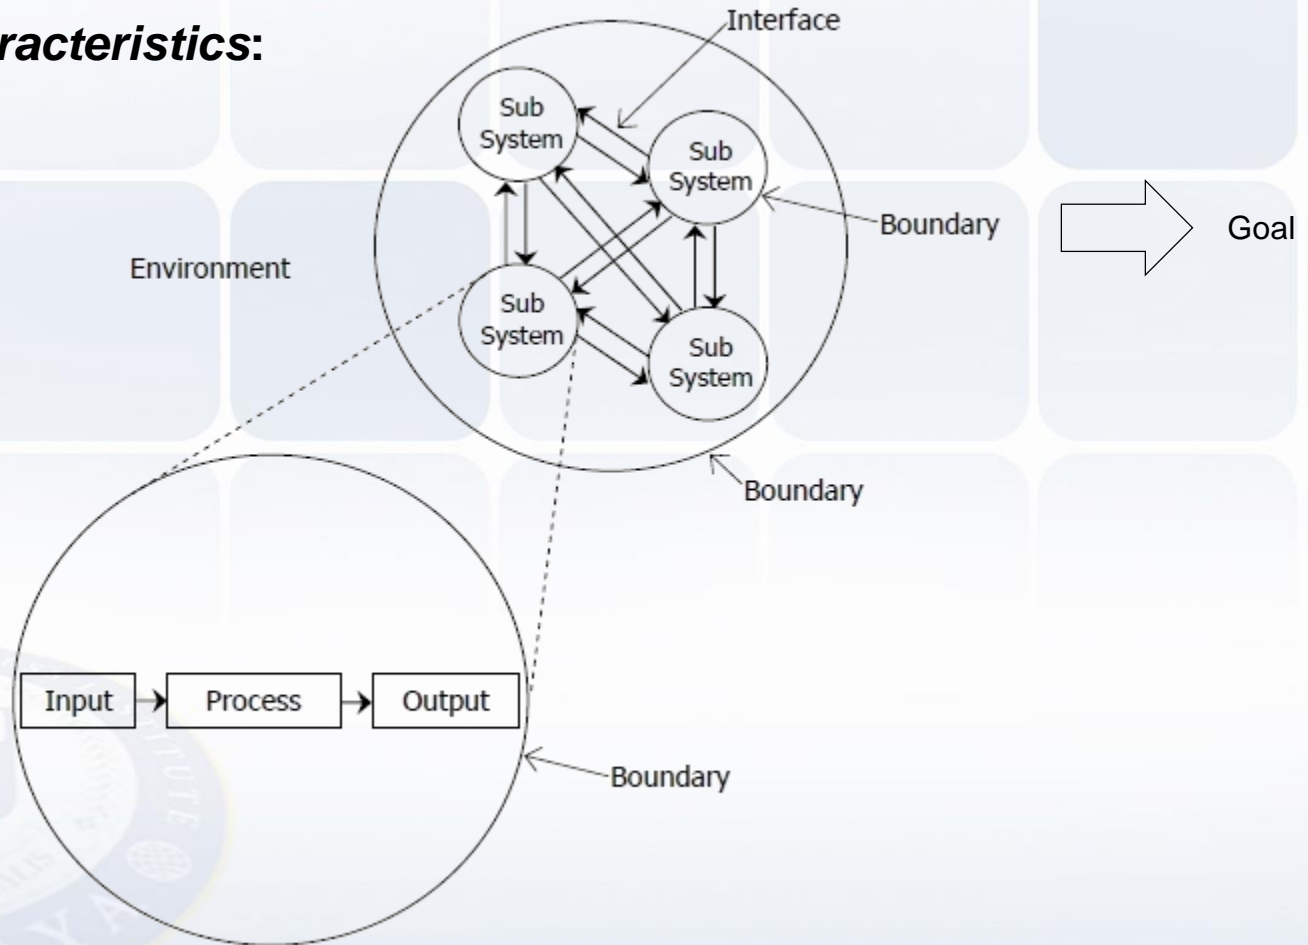

✓ *Closed system vs Open system*

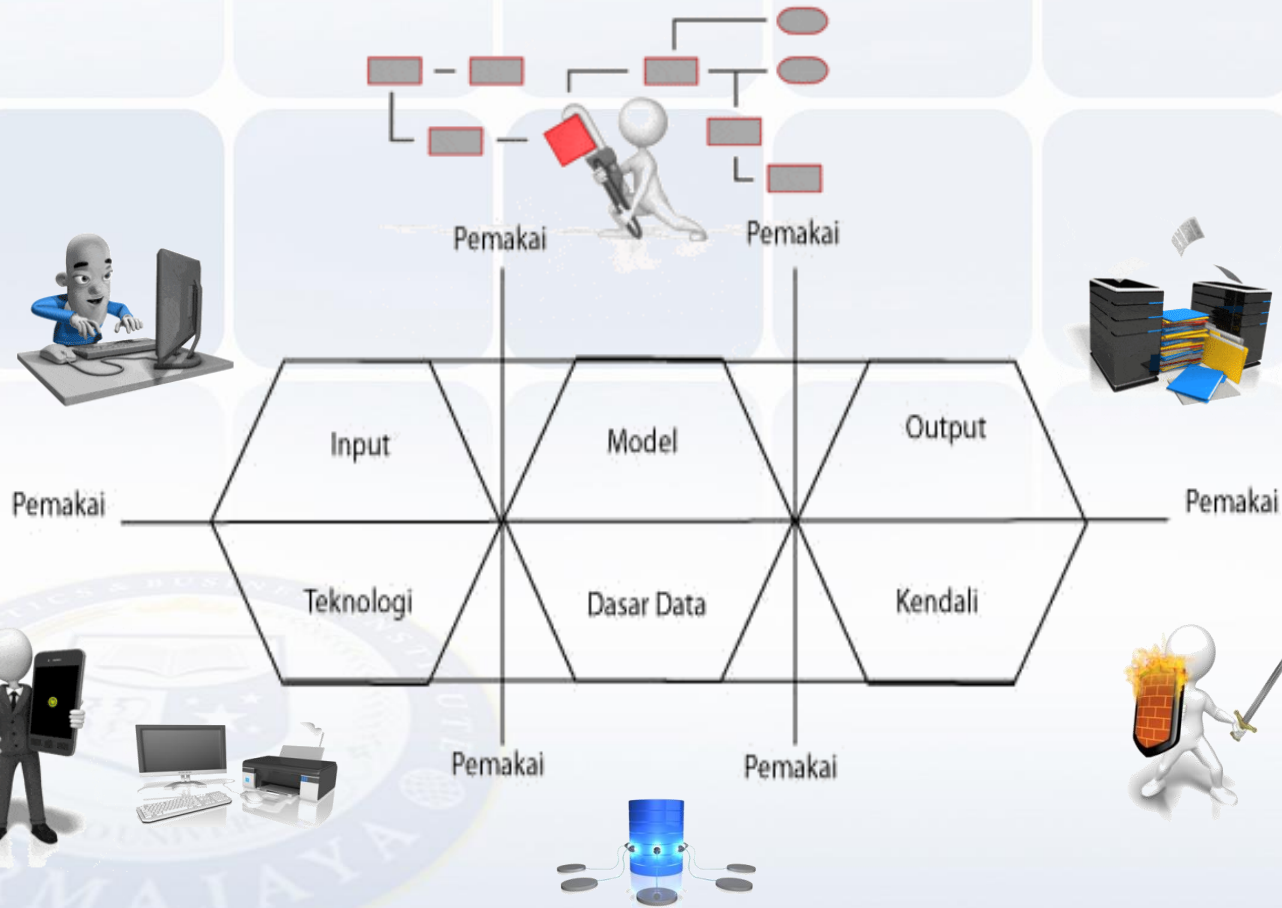

Basic Concepts

❖ System Characteristics:

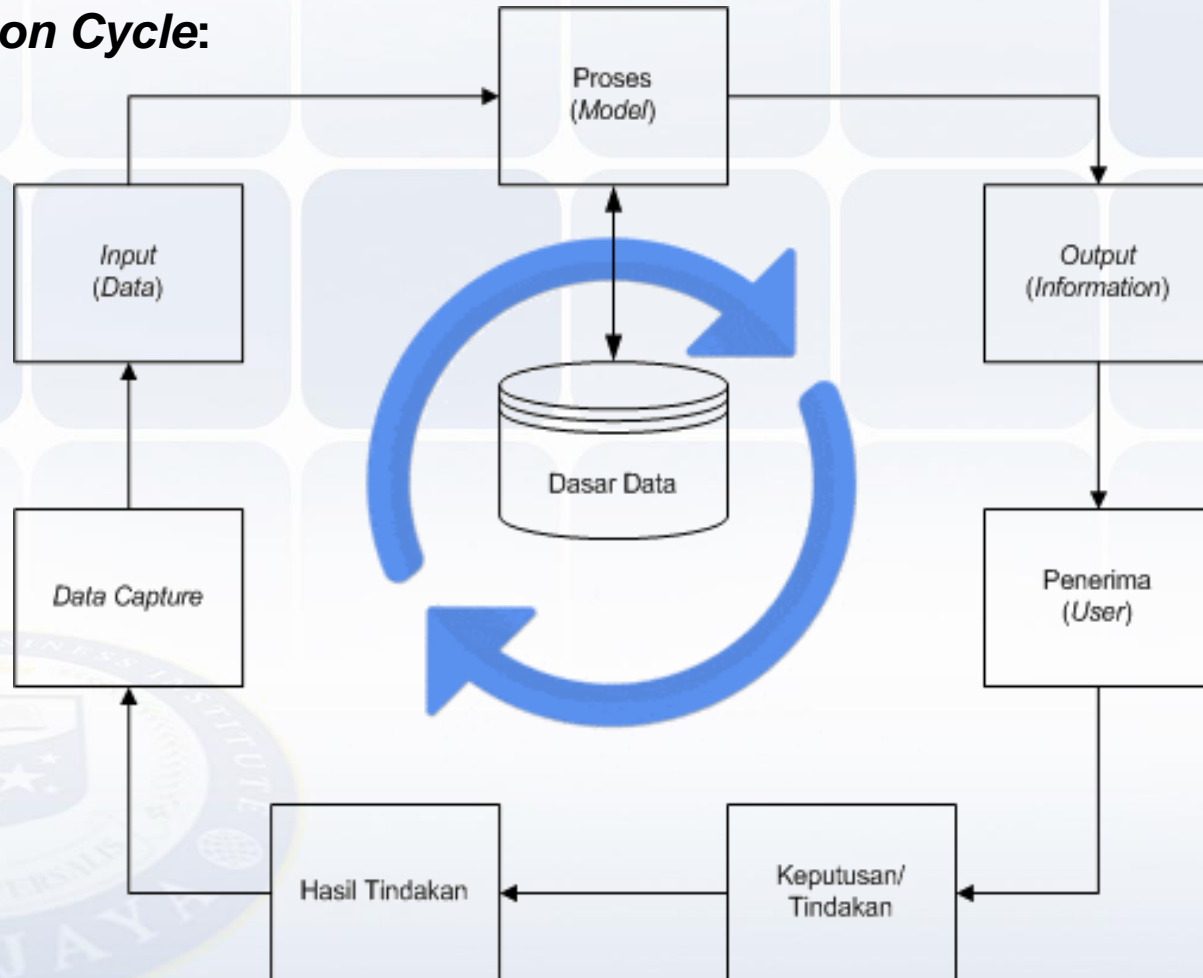

Basic Concepts

❖ Information System Components:

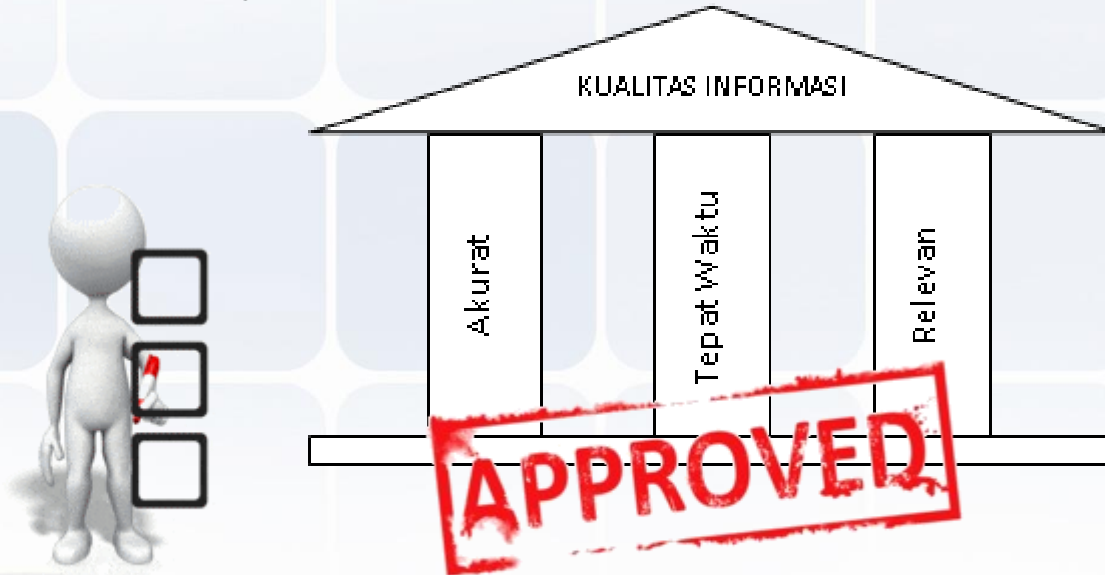

Basic Concepts

❖ Information Cycle:

Basic Concepts

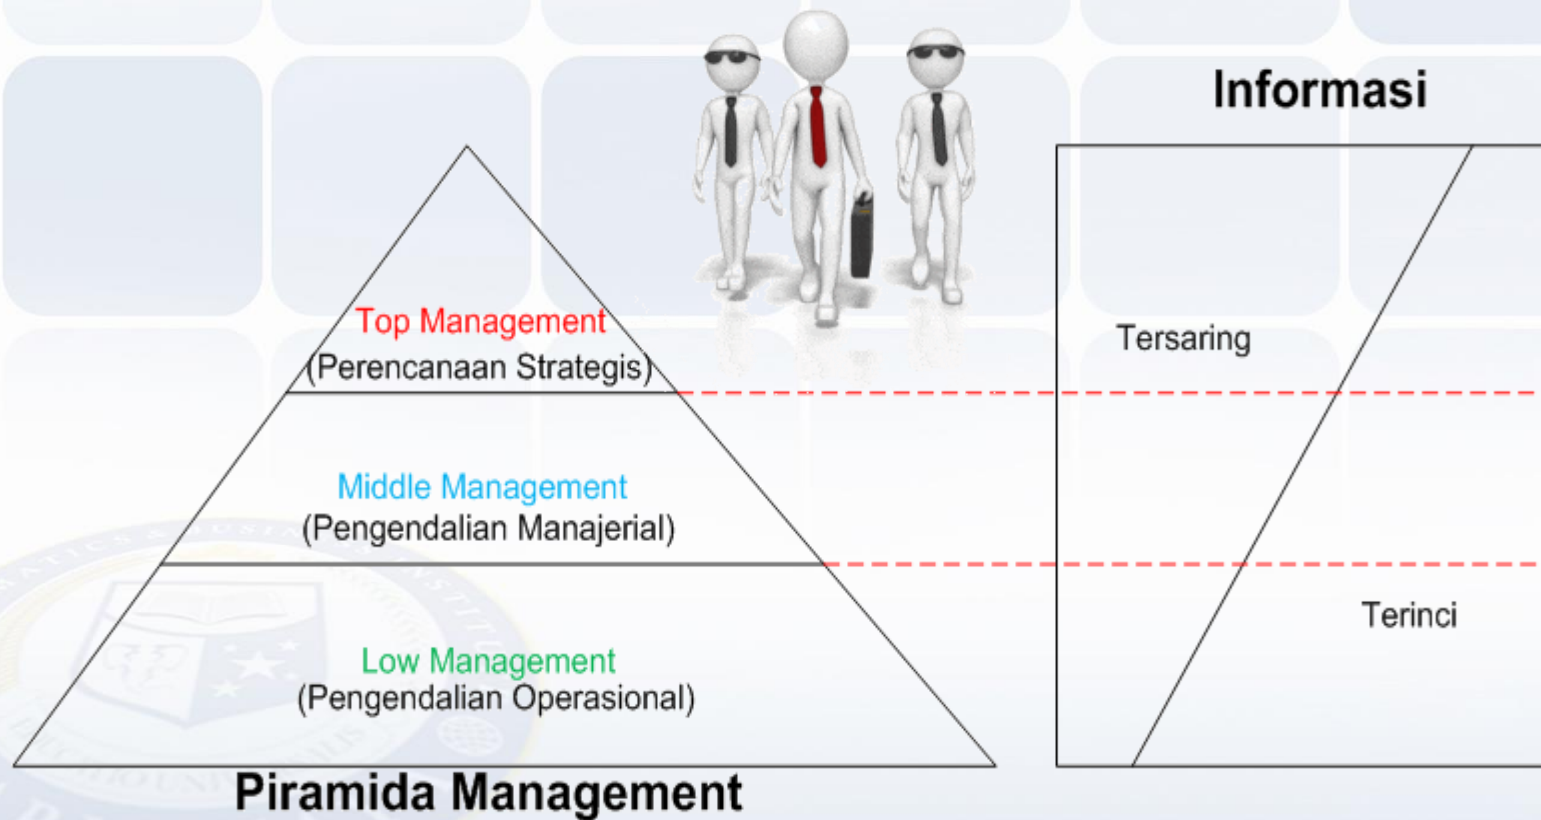

❖ Information Quality:

❖ Information Value:

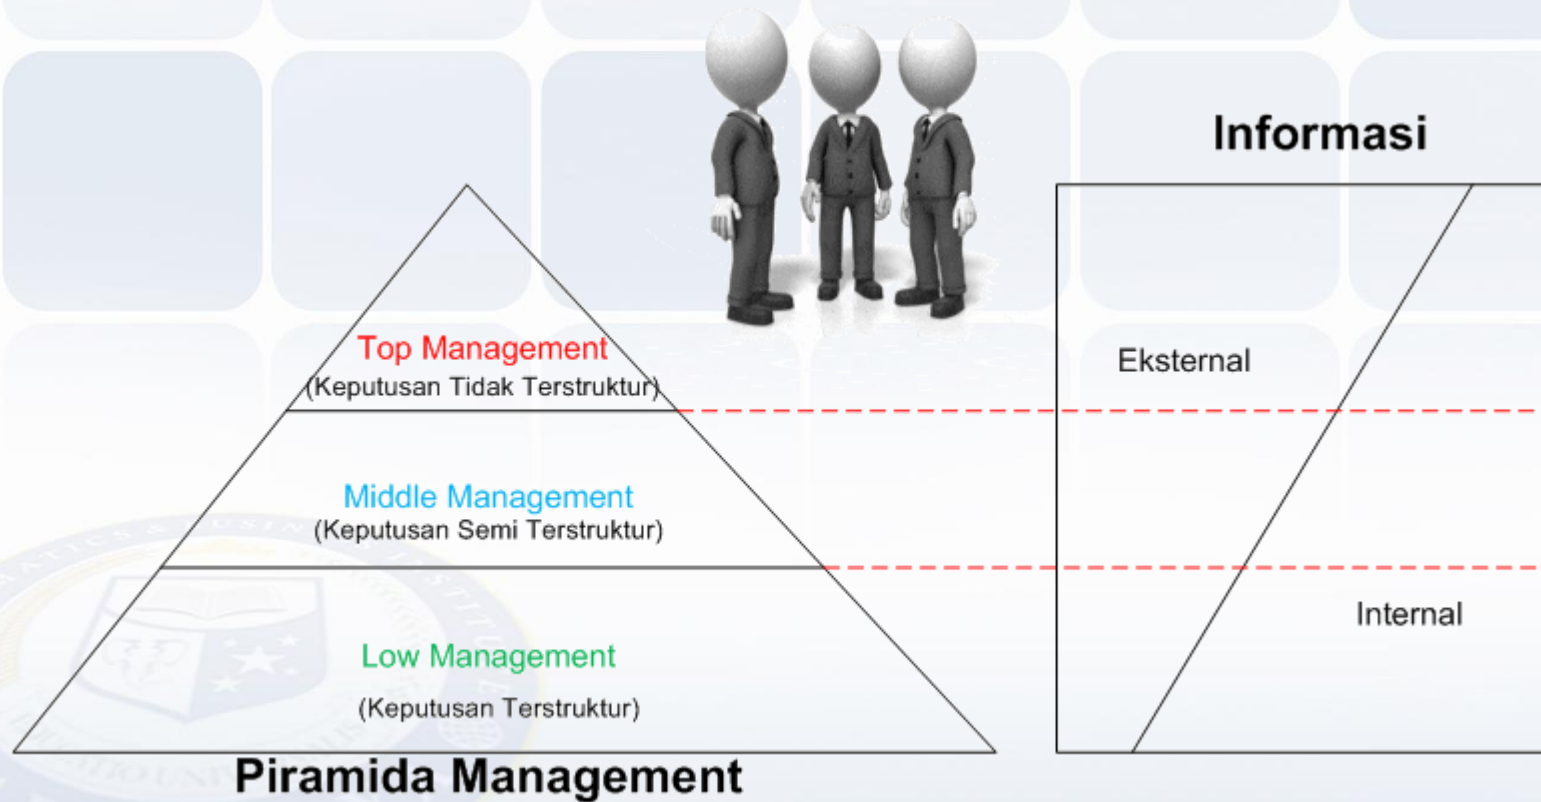

Basic Concepts

- ❖ *Characteristics of information at each level of management*

Basic Concepts

- ❖ *Information consumption patterns at each level of management*

THANK YOU
